*Jesus and the Disinherited* by Howard Thurman

Published in 1949, this is one of the most profound and eloquent books written in the 20<sup>th</sup> century about the social and spiritual transformation to which the Gospel calls us. It is a core book of the Sacred Ground program, and this study is an opportunity to discuss it in more depth with people who have not taken part in that program. We will discuss one chapter each week (about 20 pages of reading.)
